(Located inside Independent Presbyterian Church)
"We are excited to see the new things our child learns each day."
- Ashley Washington, parent

SRVS Kids & Families’ Play Do Learn is a Play based preschool program designed to meet the unique abilities and learning styles of young children, typically developing or with developmental delays. Play Do Learn focuses on emphasizing appropriate language development and social skills for young children, ages 15 months to 3 years of age.

The inclusive social learning classes focus on each child’s individual needs incorporating the following techniques:

- Applied Behavior Analysis (ABA)
- Structured & Incidental teaching
- Daily interaction with typical peers

The Play Do Learn classrooms utilize a small group setting that allows children to learn at their own pace and to adapt a style of learning that takes to heart their individual interests and abilities. Our highly skilled teaching staff provides a nurturing learning environment with small group instruction that equips each child with appropriate skills to learn, grow and socialize in a fun yet meaningful way.

Preschool is an important place for children to develop friendships while learning academic and social skills. The Play Do Learn Preschool gives children with and without disabilities the opportunity to learn from each other in a positive and productive way.
