

Turtles K-1

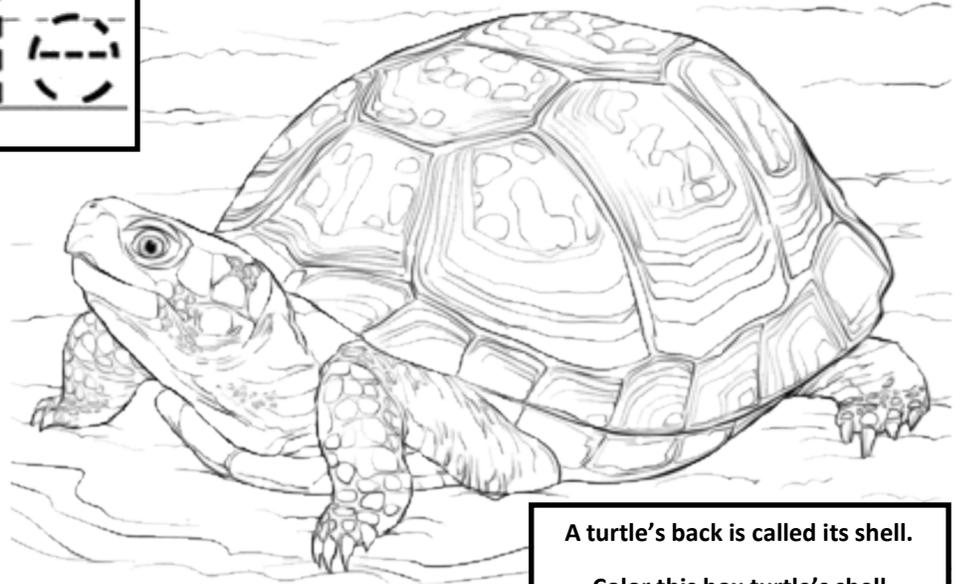

A turtle is a

A turtle's mouth is called a beak.

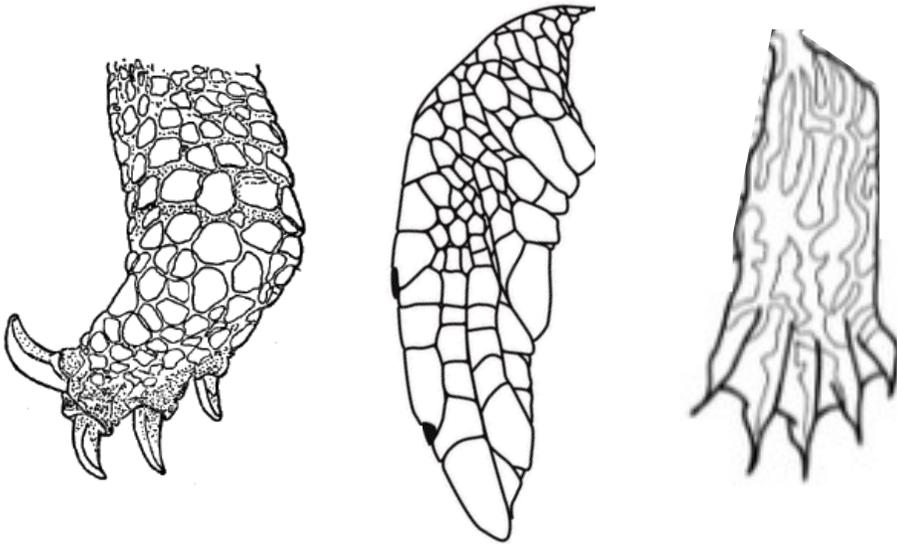

What other animal has a beak?

Can you draw it?

A turtle's back is called its shell.

Color this box turtle's shell
brown, yellow, and orange.

An animal's home is called a habitat.

A turtle's feet can tell us which habitat it lives in.

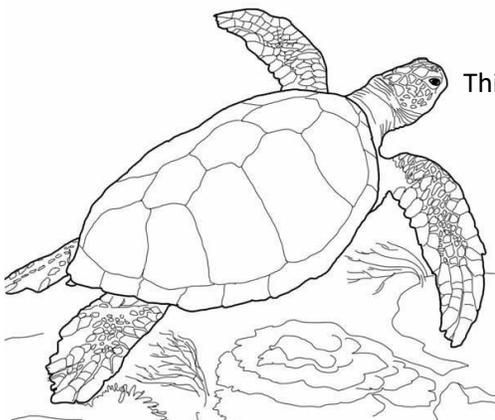

-A flat foot means it lives on **LAND**.

-A big flipper means it lives in the **SEA**.

-A webbed foot means it lives in freshwater like a **LAKE**.

Can you match the feet to the habitats?

Try writing the name of the habitat on the lines below the feet.

This sea turtle is hungry. Can you put a big X on the things that it should not eat?
